by an entity whose purpose is to protect and conserve grassland and related conservation values. This land becomes eligible for enrollment in GRP if the existing contract, easement, or deed restriction expires or is terminated, and the grassland values and functions are no longer protected.

(e) Land on which gas, oil, earth, or other mineral rights exploration has been leased or is owned by someone other than the applicant may be offered for participation in the program. However, if an applicant submits an offer for an easement project, USDA will assess the potential impact that the third party rights may have upon the grassland resources. USDA reserves the right to deny funding for any application where there are exceptions to clear title on the property.

(c) Applicants submit applications that identify the duration of the easement or rental contract for which they seek to enroll their land.
